- AWS Academy Graduate - AWS Academy Machine Learning
- IBM Cloud Essentials - COURSERA
- AI For Everyone - COURSERA

## Skills

---

Python	Html
CSS	Bootstrap
SQL	Javascript
ReactJs	NodeJs

## Academic Project Details

---

- Web Page Change Detection Using Machine Learning

**Role:** Execution

**Technology:** Python,Random Forest,Support Vectors

**Description:** Developed an algorithm that can monitor and distinguish between normal and more significant changes and identify alterations in web content efficiently.

- Credit Card Fraud Detection Using Deep Learning.

**Role:** Debugging and Documentation

**Technology:** Python, Deep Learning Frameworks, Neural Network Architectures

**Description:** Developed and implemented models to identify fraudulent transactions, utilizing advanced algorithms and neural networks, by maintaining data integrity and confidentiality while optimizing detection accuracy.

## Strengths

---

- Strong Communication
- Team Work and Collaboration
- Hardworking
- Adaptability

## Hobbies

---

- Playing Cricket
- Surfing Web
- Cooking

## Publications

---

**Credit Card Fraud Detection Using Deep Learning Techniques - (IJSREM), *M. Prasanth Paul***

## Declaration

---

I hereby declare that all the details mentioned above are true to the best of my knowledge.
